*** PRESS RELEASE ***

On November 21, 2018, Tier1 Access LLC became the first Registered Telecommunication Provider able to provide Number Portability in the US Virgin Islands 340 Area Code. This is the culmination of over an almost 2 year effort by Tier1 to bring Carrier Grade VoIP Services to the Islands.

Ownership	Geography	Routing	Code Block Info	Additional Fields	IP Fields			
Show 50 entries		Search: <input type="text"/>						
#	Phone Number	Status	NPAC SPID	Company	Alt SPID	Last Alt SPID	OCN	SV Type
1	340-715-8581	Ported - Inter	8824	Level 3/1			128J	Wireline
2	340-715-8582	Ported - Inter	8824	Level 3/1			128J	Wireline

Tier1 working with our partner CenturyLink/Level 3 has overcome the challenges created by the inability to obtain capacity in the aftermath of Hurricanes Irma and Maria. In November of last year, Tier1's Platform was ready for deployment which would have allowed for rapid restoration of Phone Service throughout the Territory had local capacity been available. In response to this continuing capacity challenges, Tier1 and CenturyLink/Level 3 have finally been able to provide its own independent capacity and eliminating reliance on any Local facilities. Tier1 is committed to bringing NextGEN services to the USVI which provide Resiliency, Redundancy and Restoration of Services in Days not Years.

In the coming days, Tier1 Access LLC will be ramping up its operations in the Territory beginning with the priority for restoration of services to Businesses still affected by the Disasters of last year and building the local support infrastructure required to service both Business and Residential. Tier1 and its partners are committed to providing the path forward for the US Virgin Islands to become the vital resource that bridges North, South and Latin America while becoming the key asset in technology throughout the Caribbean.
